Coming up this season, Gateway Theatre presents *Otosan*, a new play created by Vancouver-based artists Shizuka Kai, Randi Edmundson, and Jess Amy Shead. Join Shizu and her Otosan (*father* in Japanese), as they traverse through snowy landscapes and tackle challenges together, eventually learning how to communicate their love.

Come along with little Shizu as she hides in her Otosan's suitcase and secretly travels to his most dangerous destination, The North. Her presence is a big surprise and an even bigger nuisance to her gruff, no-nonsense father.

Inspired by co-creator Shizuka Kai's real-life experience with her father, a wildlife videographer, *Otosan* is a beautifully told story that uses puppetry, real wildlife projections and an original score to take the audience on an immersive journey.
